

# Bus Rapid Transit Plan

**Gainesville Regional Transit System (RTS)** is conducting a study that will determine the possibility of implementing Bus Rapid Transit (BRT) and associated bus service enhancements in Gainesville and the urbanized areas of Alachua County.

**Two interactive workshops** have been planned that will allow citizens to participate in the study process. Workshop attendees will be given the opportunity to:

- learn about BRT service and its major components,
- indicate their preferences for BRT service characteristics for the City of Gainesville, and
- identify where specific BRT elements should be implemented.

**You are invited** to come listen, ask questions, and participate.

Paid parking is available at the Reitz Union Visitor Welcome Center Garage located on the UF campus (see map on opposite page). In addition, several RTS routes provide service to the Reitz Union.

Please plan to attend and participate.

**Gainesville RTS Public Workshops\***

**When:** January 16, 2009  
**Where:** J. Wayne Reitz Union  
 Room 285  
 University of Florida
